GET AN EDGE...

Want to get out of the gate faster? Want to win more races? Of course you do! Read on to find out how you can **get an edge** on the competition.

At the track, TARA controls the race. We have been making Gate Controllers for over 20 years and there is nothing tougher or more dependable on the market.

You know that TARA is the best, and you asked us for a personal Gate Controller as tough as the one at the track, that works **ex-actly** like the one at the track and one that you can afford to own. Well, we listened, and here it is: The all new **TARA AGC-4P**, personal Gate Controller.

We based the design of the new AGC-4P on our professional AGC-4 Gate Controller. We even use the same microprocessor. This guarantees that the timing is exactly the same in your

back yard as on the track. Look at the features you get when you buy the AGC-4P:

115 or 230 VAC operation.

Built in speaker with complete voice commands.

ABA/NBL-UCI Switch to easily Change Leagues

Built in LED staging lights.

Air Gate output.

Optional Timer module.

Optional External Light Stand

Rugged steel enclosure.

One-year factory warranty.

Call today and let us tell you about the many exciting possibilities of the AGC-4P.

Use it with the companion Personal Air Gate.

Time your starts with the optional Timer module.

Make your practice sessions as close to race conditions as possible.

Get an edge on the competition.

Best of all, you can **Get an edge** for only **\$375.00**
